

Associated Students Board of Directors  
Humboldt State University  
Meeting on Monday, April 30, 2018  
University Center Banquet Room  
Immediately following the adjournment of the 2017-2018 Board of Directors Meeting  
Agenda #1

- I. Call to Order
- II. Roll Call
- III. Approval of Agenda #1 dated April 30, 2018 – **Action Item**
- IV. Chair's Report
- V. Approval of Minutes
- VI. Public Comments (As per the Gloria Romero Open Meeting Act of 2000 authorized by Section 89306.)

Every A. S. Board of Directors agenda for regular meetings shall provide an opportunity for members of the public to directly address the A.S. Board of Directors on any item affecting higher education at the campus or statewide level. Provided that no action shall be taken on any item not appearing on the agenda. However, the Board of Directors may briefly respond to statements made or questions posed by a person exercising their public testimony rights, may ask a question for clarification, make a brief announcement, or make a brief report on his or her own activities. The A.S. Board of Directors may also provide a reference to resources for factual information, request staff to report back to the body at a subsequent meeting concerning any matter, or request that a matter of business be placed on a future agenda.

Persons recognized by the Chair should first identify themselves by name. Time limits will be established by the Chair depending on the number of people wishing to speak and the length of the Agenda. The maximum amount of time per speaker shall not exceed 10 minutes. Public comments regarding items on the agenda will be taken prior to each agenda item.
- VII. Presentations
- VIII. Appointments to the Board of Directors and Committees
  - A. President
  - B. Administrative Vice President
  - C. Legislative Vice President
  - D. Student Affairs Vice President
- IX. Old Business
- X. New Business
  - A. Club Accounts – Discussion Item  
The Board will discuss the future of clubs accounts under the management of Associated Students.

B. 2018-19 A.S. Board of Directors Standing Rules and Meeting Schedule – **Action Item**  
The Gloria Romero Open Meeting Act of 2000 Section 89305.5 requires each legislative body to annually establish the time and locations for holding regular meetings.

XI. Official Reports (10 minute limit each speaker, additional time at discretion of Chair) (This is a time for committees/boards members to provide a report to the Board of Directors.)

- A. Committee Reports from Students-at-Large
- B. Executive Officers’ Report
- C. Representatives’ Report
- D. Advisors’ Report

XII. General Discussion (At this time the Board of Directors membership may follow-up with questions regarding reports.)

XIII. General Session

- A. Summer Contact Information – Information Item (Jenessa Lund)
- B. A.S. Orientation & Priority Planning Retreat – Information Item (Jenessa Lund)

XIV. Announcements

XV. Adjournment

This event is wheelchair accessible. Persons who wish to request disability-related accommodations, including sign-language interpreters, should contact Patric Esh, AS Council Coordinator, at [patric.esh@humboldt.edu](mailto:patric.esh@humboldt.edu) or call (707) 826-4221. Some accommodations may take up to several weeks to arrange.

**ASSOCIATED STUDENTS BOARD OF DIRECTORS  
2018-19 STANDING RULES**

**PROPOSED: April 30, 2018**

**I. MEETINGS**

- A. The Associated Students of Humboldt State University shall conduct its business in public meetings in accordance with the Gloria Romero Open Meeting Act of 2000 and as outlined in Government Code, Section 11 regarding meetings.
- B. All regular meetings will convene at 3:00 p.m. as per the attached schedule.
- C. A special meeting may be called at any time by the Legislative Vice President or by a majority of the membership of A.S. Board of Directors by providing appropriate written notice.
- D. Meetings will adjourn by 6:00 p.m. regardless of the completeness of the Agenda, unless extended by a majority vote of Board of Directors.
- E. All meetings of the A.S. Board of Directors shall be open and public, and all persons shall be permitted to attend any meeting, except as provided in the Gloria Romero Open Meeting Act of 2000.
- F. Public Comments (As per the Gloria Romero Open Meeting Act of 2000 authorized by Section 89306.)

Every A.S. Board of Directors agenda for regular meetings shall provide an opportunity for members of the public to directly address the A.S. Board of Directors on any item affecting higher education at the campus or statewide level, provided that no action shall be taken on any item not appearing on the agenda. However, the Board of Directors may briefly respond to statements made or questions posed by a person exercising his or her public testimony rights, may ask a question for clarification, make a brief announcement, or make a brief report on his or her own activities. The A.S. Board of Directors may also provide a reference to resources for factual information, request staff to report back to the body at a subsequent meeting concerning any matter, or request that a matter of business be placed on a future agenda.

Persons recognized by the Chair should first identify themselves by name. Time limits will be established by the Chair depending on the number of people wishing to speak and the length of the Agenda. The maximum amount of time per speaker shall not exceed 10 minutes. Public comments regarding items on the agenda will be taken prior to each agenda item.

- G. During “Official Reports” on the Agenda, each report is limited to 10 minutes, with additional time allowed at the discretion of the Chair.
- H. All members are expected to comport themselves in accordance with the respectful attitude necessary to conduct business meetings.

**II. BUSINESS**

- A. All parliamentary authority for the A.S. Board of Directors shall be from Sturgis Standard Code of Parliamentary Procedure.  
For purposes of computing a majority or two-thirds approval, only yes and no votes shall be taken into account.

- B. All new business (business to be addressed at the next meeting, proposed legislation, resolutions, etc.) shall be submitted in writing to the A.S. Board Coordinator by 5:00 p.m. on the Wednesday of the academic workweek preceding the meeting it is on the agenda. The A.S. Board Coordinator will distribute the proposed items to the Board of Directors and the Executive Director.
- C. No action may be taken on any issue of legislation until that issue has been publicly posted for at least 72 hours before a regular meeting.
- D. When considering an action item listed under New and Old Business, the Board of Directors will:
  - 1. Receive a presentation by the author.
  - 2. Receive comment from members of the public.
  - 3. Make a motion for action.

### **III. APPOINTMENTS TO COMMITTEES**

- A. As outlined in Government Code, Section 7, committee appointees are required to be present at the A.S. Board of Directors meeting at the time they are nominated. This attendance requirement may be suspended by a two-thirds vote of the Board of Directors.
- B. The appointment of Board of Directors members to committees by the President or each Vice President shall take place after the appointments of students at-large.

### **IV. ADOPTION**

- A. These standing rules shall be adopted by a majority vote of the A.S. Board of Directors and will be on-going year-to-year. They may only be amended or modified by a 2/3 vote of Board of Directors.

**Associated Students Board of Directors  
2018-19  
Meeting Schedule**

*Meetings of the AS Board of Directors are at 3:00 p.m. in the University Center Banquet Room unless otherwise noted.*

**FALL SEMESTER 2018**

Monday, August 20, 2018

Monday, August 27, 2018

Annual Audit Review Meeting - TBA

Monday, September 17, 2018

Monday, October 1, 2018

Monday, October 15, 2018

Monday, October 29, 2018

Monday, November 26, 2018

**SPRING SEMESTER 2019**

Monday, January 28, 2019

Monday, February 11, 2019

Monday, February 25, 2019

Monday, March 11, 2019

Monday, March 25, 2019 – Includes AS 2019-20 Recommended Budget Discussion

Monday, April 8, 2019

Monday, April 15, 2019

Monday, April 29, 2019 – Transition Meeting

*Associated Students Board of Directors Meetings are conducted in accordance to the Gloria Romero Open Meeting Act of 2000 and are open to all students, faculty, staff, administrators, community members and other interested parties.*

# Appointments to the Board of Directors and Committees List

## Committee Applicants:

### President

1. **Name:** Claudia Sifuentes

**Committee:** Sponsored Programs Foundation Board of Directors

**Explanation of why they are interested in the position:**

I am interested in continuing being part of the executive committee to gain more experience and be able to help my peers make big decisions. I feel like being part of a team that has a voice and speaks for the school means so much. I am interested being the student's voice and represent them on what they need and want. I have already been in the executive committee and know that if I get a bit more experience then I will be able to smoothly do my work and help my people.

I'm interested as to what can be brought to the Students in order to create a fun environment where their fun and academic lives balance out.

I have worked in the Vice Provost/Graduate Studies Office for three years as a student assistant and have interest in who is chosen as Humboldt State's next Vice Provost.

I am interested in this position because it is a great opportunity to work towards goals and ideas regarding sustainability and environmental justice. This committee is a great resource to work with a dedicated team toward common goals and I am excited to become a part of it.

I believe this committee will make me more aware of the finances on campus and will help me better represent the school and AS in the position I'm holding.

HEIF is an amazing organization that promotes the use of sustainable practices/appliances by funding various projects that were inspired by students. Encompassing the "learn by doing" aspect, HEIF relies on the student body to come up with proposals and research the feasibility of said project. It's a great learning experience and resume builder for students to see what goes into making an idea become reality. I want to be a part of this committee because there are these awesome projects waiting to be approved or changed and we can't progress without the student's input.

The main reason I am interested is the team. While I was at SMC I was also interested in joining AS and represent the school. But the reason I ended up not joining was due to the teams division and lack of dedication. I really see a lot of dedication and unity in the HSU team, that I would love to join and share the skills I have.

The main reason I am interested is the team. While I was at SMC I was also interested in joining AS and represent the school. But the reason I ended up not joining was due to the teams division

and lack of dedication. I really see a lot of dedication and unity in the HSU team, that I would love to join and share the skills I have.

I would like to become more involved and I'm highly interested in photography and would like to build a background with work experience in a position that I could utilize photography in.

I think that scholarships are essential for our education. This is why I am eager to be a part of this committee.

I was part of this committee last year and had an incredible time working with my team to book and plan great shows for our community. I would love the opportunity to further learn and work on exciting projects.

To continue involvement in Earth Week activities, seek out new and original events, and increase student involvement in the week.

I am interested in being a proponent of interdisciplinary and place-based learning, and learning about how curriculum decisions are made on campus.

Serving on this committee allows me to remain actively involved in campus life. Last year I learned so much more about the activities on campus than I wouldn't have learned had I not served on this committee.

Being active in my community by being directly able to communicate my opinion in an environment where I will be heard is a main reason why I would want to be interested.

Im very interested in this position, not only because I would be part of the student government, but also because I would love to be more involved on campus and have an outlet to use my voice.

I am interested in this position because I want to contribute a place for students to have a positive, fun, and safe environment. I also enjoy all realms of music and instrumentals produced in local areas.

I want to learn more about what goes into approving grants and the functioning behind the scenes. I served on the board last year and it was interesting.

I am interested because I not only want to continue to get involved within the university community, but I also would like for other students and faculty members to participate. If we do something to educate and increase student awareness about the global and local environmental issues that we face today, we are able to individually decrease our carbon footprint. By getting involved, it allows us to also get to know our peers and, together, we are able to move forward in making our campus more sustainable and energy-efficient.

I am interested in this position because I care about our environment and I would like to be involved in encouraging the student body to participate in making a difference for earth day.

I feel that I am qualified to perform any task required of me and I will try to ensure that every space on campus is inclusive to those are in need of safe spaces.

I have always desired to be part of the A.S. presents committee because I am very passionate about live performances, and spend large amounts of time following new album releases, and the tours of musicians. Going to concerts is a passion of mine and I feel like my passion and knowledge of music would be an asset to the committee.

I am passionate about empowering students to be involved in the democratic process on campus and in local and state politics. I want to work in political advocacy in the future and feel that this committee would prepare me with the necessary skills for that.

I have a strong desire to better the health services on campus, with an emphasis on the mental health services. Mental health has always been a passion of mine, leading me down the road of studying psychology.

Currently the committee doesn't have a student standing. This is why I am interested in this position.

I want to help bring ideas to campus events and work to my full potential to make the campus a fun environment for our peers on campus.

After learning that my college does not have their own strategic plan, but our new dean put together this team to achieve that, I became very interested in helping. I love my college and my teachers and although I'm only here for a few years, I would like to play a role in helping future students succeed within this college.

I have been very interested in the IRA fee ever since learning more about it in May of 2017.

Serving on this committee would be an honor to learn more about the fee and create change of how this fee is allocated.

I feel that it is essential to have a student representative(s) on board with reviewing and choosing the prospective Vice provost for Academic Programs ;I also feel that I can bring my perspective(as a student), with previous committee experience, into this position with respectful attention and perception. Lastly, I am greatly interested in how the hiring process works as well as how this impacts decisions implemented on-and off- campus.

This includes helping out allocating the grant budget for the club. The MCC needed someone to be on the board and I was interested. This can be a great experience for budgeting background as I am a Finance major.

I have strong intrest in policy and wanted to make sure the committee would benefit my education.

As an associated student member I hope my presence and voting status would help facilitate the management and physical environment of the campus. My approach would consider student's with disabilities access and evaluate sustainable guidelines for future projects. It's a sort of committee I wanted to be a part of which was HEIF; making sensible decisions about revamping our campus to fit our goal of becoming energy independent.

I never got involved at CR and I realized that I want to be involved. Also, I would like to stay in the area after graduation and work for HSU.

I am extremely interested in student affairs. I genuinely love Humboldt State and because of where I come from and my experiences here at HSU I know I could contribute it into this committee. I do represent a lot of students that come here and this would be the perfect way to get involved.

I had submitted an application for this committee before but there was a conflict of interest because I worked for HEIF, I've decided to better serve this organization I would stop working and apply. HEIF is an amazing organization that promotes the use of sustainable practices/appliances by funding various projects that were inspired by students. Encompassing the "learn by doing" aspect, HEIF relies on the student body to come up with proposals and research the feasibility of said project. It's a great learning experience and resume builder for students to see what goes into making an idea become reality. I want to be a part of this committee because there are these awesome projects waiting to be approved or changed and we can't progress without the student's input.

I have experienced the struggles of college bureaucracy and trying to make sure my voice is heard and I want to help other students to make their grievances heard and be apart of the solution to any issues students are having. I want to be part of the system that empowers other students in taking control of their education and making sure that any shortcomings they see in the system can be addressed.

From my past experience working on campus, I believe I will contribute different ideas to the Diversity and Inclusion Board.

Two reasons, I would like to start a Cancer Awareness Club.

Secondly, I would like to coordinate a fundraiser, possibly with music to donate the funds to Humboldt State University Advancement Foundation, or obtain enough funds, to create a Cancer Awareness Club.

I am interested in gaining a deeper knowledge on what the student fees account for and the opportunity to have a part in shaping what our student fees are used for in the future.

I am interested in helping to create a better community-based learning environment for Humboldt State students and students every where I'll go in the future. My career goal is to be a college professor and I believe that I can learn invaluable skills from being on a committee such as this. I have a few ideas that could be really awesome if implemented, regarding social events and promoting a closer campus community.

I was on this committee last year, and was asked to be on it again for this year.

I am personally interested in being apart of the Alcohol, Tobacco and Other Drug Prevention Committee because I am a member of the straight edge community and it would be very interesting to be backstage and understand how humboldt state is going through procedures to let students and faculty know that there are many resources for them if the are abusing substances or simply want to be educated on the affects of Alcohol, Tobacco and other Drugs. I believe that ignorance is a choice and to show the Humboldt state community that we as a committee stand by them then there is no excuse for the ignorance.

I am interested in being on this committee because I believe that students should be involved in the process of deciding where their fees are going. I believe that the university should allocate our fees according to what the priorities of the students are and the best way to do that is to get students directly involved.

Because I could use my CS background to help get this committee more connected

I am interested in this position because I want to get involved with important issues on campus.

I have great interest in the transportation sector. Additionally I have heard of many accounts of the parking issues here at HSU (although have not experienced it first person) and would love to be able to contribute to the solution. And overall, being able to participate in the committee would provide valuable practical experiences for any future career or academic settings.

I'm interested in this position because I have been meaning to find ways to get more involved in campus activities, while also learning more to benefit me in my future endeavors.

HSU is in a budget deficit and in the middle of important planning stages. Other students and myself do not feel that the University's budget/spending is reflective of the values of HSU and the priorities of its students. I want to bring the student voice to the URPC. Students should have more say in how resources are allocated.

I am a graduate student in the Energy, Technology, and Policy and I have heard of the HEIF from my class and is very interested in learning about our school's sustainability effort. I think it would be very useful in creating my master thesis and other endeavors

As the anti-racism educator at the Womyn's Resource Center I feel it is necessary and appropriate for me to sit on this committee and act as a liaison between the the WRC and the student government body and express opinion/concerns/changes that need to be addressed.

I want my voice to be heard as well as hearing what others have to say.

I'm interested in learning more about budgeting and getting involved with school funding.

I love planning events and I have some great ideas for Green Week!

Interested in sustainability and especially in energy and policy sector. Would be a great experience to be able to participate in committee meetings and related activities to further familiarize myself with measurement processing starting with the university level.

I am a co-director at the Campus Center for Appropriate Technology

I am in my fourth year here at H.S.U., and am always looking for ways to get involved and make a difference.

I am a coordinator for Green Campus and we plan Earth week events

I am interested in learning more about the conversations that are happening on campus regarding diversity and equity. I have seen enough staff and faculty of color leave HSU to know the impact it has on students and the overall campus community. I wish to be a part of these conversations to learn more and give input when necessary.

I want to help the school and the students be more environmentally friendly. I believe HSU is fairly environmentally conscious, but I believe it could be even more so with enthusiastic students spreading environmental education.

Have interest in public affair and policy field. Additionally, this opportunity will provide me with a better understanding of current and future budget for AS.

Being in this position will allow me to get other students educated on possible opportunities they have for international study.

I feel that this is a great opportunity to gain experience with educated professionals while serving the community of Humboldt State University and better serving the health and wellness of the people.

I would like to serve on the Board of Finance because I would like to be a part of the student government on campus and I believe the Board of Finance would be great experience that I can learn and grow from.

I am intersted in applying for the Environmental Health and Occupational Safety Committee because, as an Environmental Biology major, I am interested in gaining experience and helping the community improve environmental conditions on campus, to benefit the health and integrity of Humboldt State University.

I want to ensure that every student here at HSU has a voice and that we can make all students here at Humboldt State University successful during their 4+ years here. I want to help and assist Ms. Dana Carrillo who is the VP and head of this committee by providing her insightful feedback whether it is about matters of campus policy, programming, and services that are directly related to the student body of HSU. As well as incorporate my ideas.

I would love to be more actively involved at Humboldt State, I also have some event management experience that I could help the committee with and I would also like to gain more event planning experience as well.

As an AS member, I want to help navigate decisions as important as finance.

I feel that Earth Week is a great platform for student engagement around sustainability and environmental justice on campus. I work as the Education Director at WRRAP, and feel that it is important for our program to have a voice and role in the organization of this event as our mission revolves around serving the student body and increasing sustainability on campus. I am particularly interested in working with a new group of active members of this community to build an accessible, educational, interactive, and fun Earth Week '18.

To help bring amazing people to this university

I am interested in applying for the Earth Week Planning Committee because I have a passion in caring for the environment and volunteering to make the world more just and sustainable. I have a lot of experience planning events relating to environmental justice, and I would like to share this experience and meet other like minded individuals.

As a project coordinator for Green Campus, Earth Week is a huge series of events for us. I would like to be a part of the committee to be further involved in sustainability at HSU.

I am interested in this position because I plan to study curriculum reform within public education settings during my time in graduate school, and beyond. I am passionate about integrating

culturally-appropriate narratives within the classroom, and I believe that this position will give me insight as to how curriculum changes are achieved within academic settings.

Lobbying is an essential aspect for activism and I hope to help my fellow students gain the skills and confidence to take action for their needs and well-being.

I have been on the committee for a year now, and have gained a lot of experience. I want to continue being on the committee.

My interest was peaked from Joyce when she discussed with me the idea that the student representative helped the committee amend the school's constitution.

I attended one meeting, and I believe there is a lot of potential for Earth Week this year and would like to get involved to try and make it the best possible.

I want to be involved in pushing for student interests and needs in administrative decisions.

I love helping other students and being an advocate for students with needs.

Interested in sustainability and especially in energy and policy sector. Would be a great experience to be able to participate in committee meetings and related activities to further familiarize myself with measurement processing starting with the university level.

I want to gain committee experience and believe in what HEIF stands for.

I am interested in this committee because of the inclusion of those with disabilities that do not have the accessibility that others have. I want to move into the field of Special Olympics after Humboldt, because everyone deserves a chance. I think being on this committee will help me broaden my horizon of those on campus with disabilities or any obstacle that one may have.

Laws and policies are always changing but I have learned that not everyone needs to be in compliance with these policies. I want to make sure that at least everyone on Humboldt State's campus has easy access to and from their destinations and any assistance that they may need. A great opportunity to be involved with the school and get hands on experience with this type of environment.

I am interested in this position because I would like to have a leadership role on campus, and I am interested in working with politics in the future.

The committee has an open position for a graduate student, and I believe it is important for the strategic plan and review of the college to have a student viewpoint. There are many key differences between the graduate and undergraduate experiences, and I think it is important that graduate students have a voice on this committee.

I'm looking to get more involved in university activities, especially at the leadership level. Not only does university leadership offer a great learning experience but also encourages a commitment to my own education, and the education of my peers. Student Affairs has interested me since the day I walked into the YES House and a volunteer offered me a hand sanitizer packet, "courtesy of Student Affairs." The Student Affairs division of university leadership ensures that the college continues to serve its purpose: providing not only the large means, but the small things (like hand sanitizer), to keep our university efficient in its student-oriented goals. I would like to think that I, too, can contribute many ideas and necessary support to the university through advising the Student Affairs Committee.

I am interested in this committee because the overall goal is to adjust and establish the current student fees throughout the entire school along with any new fee proposals. I think it is important for all current students and future students to understand where their money is going, future funding spending as well as other budget needs. With the lowering of money for the CSU system and the lowering of student enrollment, I want to know where the committee would make cuts and increases to ensure the school is running properly and efficiently. I would like to see how things get approved and denied for increases and cuts of money. If there are cuts to be made in

the future for any type of activity or resource, I hope that the president allows all committee members a chance as well as all students to be heard.

I am currently a student athlete representative on the IAAC, and at our last meeting am concerned over the communication between members of these committees, student athletes, and the community as a whole. I would like to be more involved:

I believe that putting student interests first is one of the most important things on campus. I would like to passionately lobby for the interests of my fellow students who's day to day lives are affected by the decisions made by the campus administration and would love to be apart of the committee that can possibly change policy and procedures of HSU.

I very much enjoy music and playing a role in our community here at HSU. It is in my interest to be social with students on campus and be able to report what/who they want to see and hear.

I am interested in this position because having a say and having an input in what programs go on campus fascinates me. I've always been interested in voicing who preforms, who puts on a show and be able to make a successful event happen. I know if i get this position, students will have great times and i will bring great ideas.

I want to help find solutions to the constant issues regarding parking on this campus, as well as upgrade facilities with appropriate technologies.

Uphold Democracy and sustain the liberation of our student body.\

I have been acting on this committee for 3 semesters now and I feel I am ready to take on a larger role.

I am interested in this committee because of a few different reasons. I am interested in creating awareness about all the health resources on campus. I understand there are many resources that are available but I think most students are not taking advantage of them. I understand the fees for HSU are increasing and the health center has great staff that are getting financial improvements. I want people to know that there are people out there that care about them in their time of need. Make sure that students are able to schedule appointments with CAPS and the health center. All students are paying for these resources, we might as well take advantage.

I am interested in this position because of all the great research HSU is currently conducting in assisting the HSU community as well as the community at large. In addition, research programs/projects allow students to gain knowledge of their community and continue to motive students to complete their education. Therefore, being part of the SPF as a undergrad student representative will personally be rewarding because of the all the opportunities, skills, and knowledge I have gained by being part of research projects at HSU.

**Description of any past experience, campus activities, and/or skills that may qualify them for this position:**

I was in AS the previous semester and I was also in the executive committee which means that I have learned how the meetings work and how important my presence to make a vote is. I am committed and will make time to make it to a meeting or get my assignment done. I am helpful and ready to learn more about this committee to be able to give in my full potential. Last semester I was in the process of catching up to everyone and now I plan to use what I have learned and what I will learn as a skill and advantage.

At Norco College I served in the Associated Students of Norco College. I held positions in the senate and followed with a Vice President position. I mainly worked with clubs and organizations

in those positions. For the spring semester of 2017, I served as the Riverside Community College District Student Trustee, where I represented over 50,000 students from the three colleges in the district. In all of these positions, I intended to bring ways that would help students feel like they belong and that they wanted to be part of the college community.

I have worked in the Vice Provost/Graduate Studies Office for three years as a student assistant and have interest in who is chosen as Humboldt State's next Vice Provost.

I have been involved with many of the Environmental clubs here on campus, attended many of the organized activities regarding environmental sustainability and awareness, as well as took on the position of being the Environmental Sustainability Officer for Associated Students.

-Student At-Large (spring 2017)

-Volunteered in Friday Night Live (FNL) to mentor students about alcohol and drug abuse

-Good communications skills/ works well with people

-great at team work

-Guest speaker at an HBCU Climate Change conference

I am the Outreach Manager for HEIF, I am well aware of the committee structure and what HEIF is all about. I have also been a part of Earth Week planning committee this past semester.

My senior year of highschool I was a leader in a religious retreat called Kairos. Where we led 6 students on a spiritual journey, wrote and delivered speeches, and connected with them. I also had a summer internship at a law office as a IT intern for Beverly Hills Bar Association where I developed my computer skills, yet came out with understanding of teamwork and communication. After seeing HSU AS team communicate and work together -- on Friday August 18th -- to find themes and actions on certain issues I felt this was a team I would enjoy helping solve problems with.

My senior year of highschool I was a leader in a religious retreat called Kairos. Where we led 6 students on a spiritual journey, wrote and delivered speeches, and connected with them. I also had a summer internship at a law office as a IT intern for Beverly Hills Bar Association where I developed my computer skills, yet came out with understanding of teamwork and communication. After seeing HSU AS team communicate and work together -- on Friday August 18th -- to find themes and actions on certain issues I felt this was a team I would enjoy helping solve problems with.

Photography experience, quick learner, well organized

I have applied to various scholarships during my educational career. I was the recipient of four scholarships my senior year of high school. I think this will give me an insight when evaluating the contestants.

I was a member of this committee last semester, and am entering my fourth semester as a member of KRFH student run radio as well as starting as assistant general manager. I have also taken many communication and journalism courses and learned skills I can apply to this position.

I made the Earth Week logo last year, and was involved in helping others set up their events. This got me interested in being more involved in this year's earth week organizing.

as a student of 4 years, I believe I have valuable input about the impact of class structure on myself and my fellow students.

I served as the Clubs representative for this committee last year. Additionally I have been an officer for multiple campus clubs over the last two years.

I had an internship with Fernando Chavez, Cesar Chavez's son and this really taught me so much about being directly involved in change as well as understanding what it is to be a leader. I was also involved in Junior Statesmen of America a place where I was able to travel to Sacramento

and meet our local government leaders to understand world issues upfront and learning to change issues within our country as well as internationally.

Im very involved in the local music scene, as well as have a love and knowledge for many current artists.

I do enjoy attending campus events and activities to create a comfortable community atmosphere. I have joined other clubs on campus as well.

I was on the committee last year. I also work for the MCC.

I volunteered for a few events with the Natural Resources Club in Fall of 2016. In Spring of 2017, I was the V.P. of Communications for Residence Hall Association (RHA). In addition, I was part of the University Center (UC) Board of Directors as the RHA Representative along with being a student member on the UC committees: UC Student Selection Screening Committee, UC Student Election Committee, and UC Finance Committee. From Fall 2016 to present, I am part of the Southside Student Council, planning events for student residents in Campus Apartments in the Fall 2016 and both Campus Apartments and College Creek in Spring 2017. A skill that I have is taking photos/videos and compiling/editing videos on an Apple Mac. I am also proficient in Microsoft Word, Powerpoint, and Excel.

I am great at working in groups as well as working individually. I'm organized and I enjoy dedicating my time to assure that projects are well planned.

I have worked with various cultural clubs on campus such as: BSU, Mecha, F.R.E.E. as well as working at the AACAE for almost two years.

I am currently the manager of the Music Group on HSU's student run radio station, KRFH. I was a member of KRFH the last two semesters.

I have experience in legislative tracking and analysis, doing outreach on campus, and organizing student efforts to achieve a common goal. I was on the Lobby Corps committee last semester and had the experience of lobbying at the state capitol and attending CHESS. Previously I interned as a legislative analyst for the Northcoast Environmental Center and was a capitol hill intern in Washington D.C. with the Congressional Hispanic Caucus Institute. On campus, I led HSU to first place in the nationwide Kill the Cup social awareness competition in 2015. Last Spring I played a large part in successfully organizing students against HSU's pouring rights contract with Pepsi. I was also the Take Back the Tap director on campus for 2 years, educating students on issues regarding waste reduction.

2000+ hours volunteering with mental health workshops & work on equity task force.

During the Spring semester of 2016 I believed that a professor gave me the incorrect academic grade. I felt lost and confused, I would have loved to know that there is a committee that could have helped me.

I have been in ASB (Associated Student Body) all four years of my high school career. I was pep commissioner where I had to plan pep rallies and roaming rallies for the campus. I've made outlines and schedules for these typeS of events. I have a lot of experience communicating with students and staff and working in teams with them as well. I was also activities commissioner where I would plan assemblies on campus and host many activities for my peers during lunch such as the halloween costume contest, raffles, and games to win prizes. I would plan and schedule rehearsals for these events. I was senior class vice president where I would help plan events for seniors, make t-shirt designs, plan the homecoming dance, and etc. I have a passion for helping/planning events on campus and I wish to continue this at Humboldt State with AS. I have maintained friendly and professional relationships with my teachers, and have made many friends within the college. I see first-hand what this college is strong in as well as where its weaknesses lie. Now that I am an AS representative for the college, I think this role will help my position in the committee.

I don't have a lot of experience that is relevant to this committee position, but being a student who experiences first-hand how budget cuts affect my educational experience along with my friends, I can lend valid input to this committee.

I previously served on the Office of Diversity, Equity and Inclusion search committee in Spring of 2017, to which Cheryl L Johnson was chosen as the new Executive Director. From this related experience, I can say that I am very receptive in understanding how search committees function to make the hiring process more congruent, as well as being aware of the long term evaluations, and interviewing involved with each candidate. I am very time sensitive and personable in inquiring about things I'm not sure of, or need clarification on.

Was involved in Y.E.S., CLCC, HSUIMA, Investment club, and ADPIC. I have an understanding of different types of clubs.

I was Vice President of ASCR and sat on multiple shared governance committees and student conduct hearings. I have held office and participated in multiple clubs. I am outgoing and passionate which allows me to build strong relationships with faculty, administration, and students.

While working for HEIF I've come to learn about facilities management's role in keeping our campus up to code from Tall Chief. They have understandably many high priority projects that need attention such as retrofitting the library for seismic activity. I've learned that it's not easy, many factors come into play when upgrading anything.

I am a finance major

I am in the Criminology and Justice Studies club. I was in the Healing Vibrations club my freshman year. I am also an ambassador for New Student Programs. In high school, I was involved in community activism. I am a well rounded student. I can work well with others as well as independently. I communicate well with my peers as well as supervisors. I am good at managing my time. I genuinely want to help others succeed at HSU.

I was the Outreach Manager for HEIF, I am well aware of the committee structure and what HEIF is all about. I have also been a part of Earth Week planning committee this past semester.

I was a writing tutor and a member of Phi Theta Kappa at my community college, both of which helped me to become an advocate for my fellow students. As a tutor, I had to help my peers with learning how to best express themselves in writing. I also got to lead group tutoring sessions for professors classes, which meant I learned how to communicate with them and understand what issues they wanted me to focus on in the group sessions. As a member of PTK, I got to help organize events on my campus and raise awareness of our program and it's benefits for other students. All of these skills translate well to helping me understand and advocate for my fellow students and in reaching out to administrators and faculty in getting the resources needed to improve our campus.

I was a HSU R.A.M.P. (Retention through Academic Mentoring Program) Mentor, HSU CA (Community Advocate), secretary at HSU ITEPP (Indian Tribal Educational Personnel Program), Vice President of the HSU TRiO Upward Bound Alumni Association, Search Committee Student Representative for the HSU Vice President of the Diversity & Inclusion Office, Sexual Health Educator at HSU Student Health Center, and a Student Representative at the United Indian Health Services (UIHS) for the Suicide Prevention Program.

President of the Cancer Awareness Club, Treasurer/Secretary for Habitat for Humanity

I was a team captain for my Tennis team in Community College, which required strong leadership skills and a strong voice. I think that these two attributes could help with being on this specific committee.

I have no formal experience with being on a committee devoted to learning, but I have worked as a tennis instructor's assistant at a camp last summer. The kids that I helped teach there made significant improvements in their game by the time that the camp had finished.

I would describe myself as a natural leader and mentor and that is what brought me to be an Ambassador for the university. I've worked with orientation for 2 years now with students who are excited to be arriving at Humboldt State. As the years have come, I have grown to love college but it hasn't always been that way so that's why I chose to be an ambassador I wanted to be a resource to prepare students for the ups and downs they might come across as a person and student here at HSU. My role as a mentor is what has driven me to find another way I can actively participate in the success and ambitious journey of graduating college. Being an orientation leader is what has led me to want to represent the university as it strives to keep its students on campus even if it's through university events/concerts that keep them coming back because I'd love to see the familiar faces in my peer groups return every semester.

Was a committee member last school year, and have served on a few other HSU committees A skill that I possess that I feel qualifies me for this position is passion and vocalization. Having been apart of the straight edge community means being passionate and understanding that not everyone will have the same mentality as you about Alcohol, & Other Drugs but as well being passionate enough to put all of the differences aside and being able to work together as a support system for those in need. In conclusion, I am just glad to know that this is a committee at Humboldt State and I know that I could contribute insight as a community member, student and faculty member.

I have experience in being on a committee because I was on the Lobby Corps Committee. I also have experience mobilizing students and administrators because I played a big part in the movement against Pepsi's pouring rights at HSU last semester. In response to the Pepsi movement and the tuition hike I have learned a lot this year about student fees.

Throughout High School, I Volunteered for charities and organizations like Food Forward and American Red Cross. I also worked a summer job at a pizza parlor

I was involved in student government in middle and high school. I held the position as junior class vice president and my senior year I was student body historian. In college, I was in a sisterhood for a brief amount of time where I held a position as a committee chair.

I am currently a first year student for the ETaP program and have interests in transportation sector. I have work experience at a NGO and through that working experience participated in some committees and work groups briefly for organizations such as Solar Cooker International and National and California Voluntary Organization Active in Disasters.

I feel that I am qualified for this position because I was a part of the student government at my highschool 3 years ago, and I would love to gain hands on experience through the University on more important topics and gain a larger understanding of what goes through the committee.

I have served on the AS Council as a CNRS Representative last fall and as Legislative VP in the spring. I spent a year on the University Senate and am familiar/comfortable working with faculty and administrators. I was also on the CNRS Strategic Planning Committee for a couple of months, and while working on the Pouring Rights campaign last semester and attending a URPC meeting, I am becoming familiar with people and the processes regarding the budget.

I was in Student Senate in my undergraduate and a member of the Sustainability committee Anti-racism educator of the WRC and secretary of HSU M.E.Ch.A

Conversational and listening skills, fulfilled leadership positions in religious activities as well as clubs on campus.

Current A.S. Rep and past A.S. Vice President at CR. I also work an event coordinator and have experience in budgeting for large events and groups of people.

Currently a volunteer and event coordinator for festivals like Reggae on the River and Northern Nights Music Festival. My crews consists of 25+ staff and over 300 volunteers. My event experience is extremely extensive and I have a wide range of skills related event coordination and promotion.

Currently a first year Energy Technology and Policy (ETaP) graduate program student and just applied for Parking and Transportation committee member position as well. Skills I can apply for this position include a) the ability to take in information from multiple perspectives and critically analyze them and report back with or without personal opinion and suggestions depending on the setting b) utilize research engines to perform literature review on specific topics and technologies c) clear and professional communication and presentation.

WRRAP Compost Site Operator, Zero Waste Humboldt Volunteer, WOOFing volunteer, Co-director at CCAT.

As a communication major, much of my education has been dedicated to learning about how to make positive social change. As a member of the Men's soccer team, I think these two aspects of my life come together nicely for me to get involved with this committee.

Green Workplace Assessment Coordinator and working for HEIF

I have worked with the Retention through Academic Mentoring Program (RAMP) for two years. During my time with RAMP I have worked closely with staff members in addressing student's needs. I am also currently working at the Latinx Center for Academic Excellence (LCAE) and I have seen the importance of employing staff of color as well as developing more positions oriented around serving marginalized communities. In my time at HSU I have gained great organization, communication, and autonomous skills that I believe would be great for this committee.

I have tried to get most of my friends and family members to be more environmentally conscious. I did my high school senior project on environmental issues, and how people can change their daily routine to be more conscious. I reached out to the water bottle company, Klean Kanteen, and asked them to donate to my senior project, which they did. They donated 40 stainless steel cups and 6 of their insulated bottles, so that I could give my audience a gift to start their reusable journey. I passed my senior project, but more importantly, I opened the minds of many of my classmates to the atrocities of plastic in our daily lives. I realize that it is difficult to get people to change their lifestyle, but I also believe it is a possible task.

Committee member of HEIF and Parking and Transportation. Applying for Graduate Representative currently.

Being in this position will allow me to get more students educated on possible opportunities they have for international learning.

I am President of the Student-Athlete Advisory Committee, I am involved in leading community service outreach events as well as organizing the voting process through NCAA to amend bylaws. I gained strong communication skills from being a leader on the Women's Rowing Team and on the Head Coaches Ethics Committee. While taking part in these positions throughout the year, I was tasked with making objective decisions with the teams best interest in mind regarding team plans and events.

I am the President of the Recreation Administration Club on campus and have volunteered at multiple A.S., student housing, and campus events. I also am a member of the intercollegiate women's rowing team and assist managing the concessions stand at basketball games. I have been a Program Director at the McKinleyville Community Services District for the past 2 years and have been responsible for budgeting camp funds for programming.

I believe I would be a great member of the Environmental Health and Occupational Safety Committee because I am very experienced and passionate about organizing around

environmental issues. I would like to join this committee to apply my organizing skills to my love of biology and health. I have been president of an Associated Student Club, Climate Crisis HSU for the last year. I am also currently president of the club this school year. I am interested in improving health and environmental hazards in the community in relation to climate change and other important ecological issues. Climate Crisis HSU has organized various Earth Day Climate Marches, panel discussions, and environmental writings for several years on campus. In Spring 2016, our club received a cultural grant and partnered with the HSU Greens to host a speaking engagement with Jill Stein. The Jill Stein event filled the Kate Buchanan Room, and was a successful event, demonstrating my skills in environmental organizing and event planning. I am also a senior in Environmental biology, and I consider myself a biologist in training, an environmental activist, and a naturalist. I believe I can bring this combination of my knowledge in biology, and my passion for conserving the natural world and campus health to this committee. During the summer I was an EOP Summer Bridge Mentor and temporary HOP Ambassador for Freshmen Orientation for the incoming freshmen. I was able to give them advice about campus policy and services available to them on campus.

As of now I'm doing an internship with the HSU athletics department where I help set up, work and break down all athletic events. I've created 2 events from start to finish and I've worked numerous times as a volunteer and have worked on event preparation as well.

I'm an articulate and reflective thinker who has worked with prominent lobbyists in the state Capitol to help manifest ideas into strategic actions

As I have mentioned, I am the Educational Director at WRRAP here on campus. Because of this, I have experience with leadership, education and outreach, and organizing various events on campus. I also participated as a workshop host during last year's Earth Week where we created a mural to inspire our campuses radical imaginations around crafting a more just and sustainable future. Through this, I feel that I have a sense of what Earth Week can consist of. I also attended various Earth Week planning meetings, so I am familiar with some of the planning processes and procedures.

Aside from campus activities, I have participated in the organization of the Sustainable Solutions Conference that took place in Bali, Indonesia in 2016. I have pretty extensive journalism experience (working for California Student Sustainability Coalition, MyBhutan, Gaia Amazona, Green School's Tulisan, and Inspired Bali). I am overall a very organized person who deals well with responsibility, and find planning for events such as Earth week not only important and inspiring work, but also really enjoyable!

I am a social justice summit coordinator at the mcc, have been a leader at the yes house, passionate, and organized

I am currently president of an A.S recognized club, Climate Crisis HSU. As a club, we have weekly meeting and have collaborated to host many events on campus. While president of the club Climate Crisis HSU, we hosted Green Party Presidential Candidate Jill Stein to speak in Spring 2017 semester. In Fall 2016 we partnered with the HSU Greens to host a Unity Day conference in the Kate Buchanan Room to focus on grass-roots activism in the community. In the past when I first joined Climate Crisis, we helped organize climate marches in Arcata in 2015 and 2016 around Earth Day and important international climate conferences. Occasionally I volunteer with EPIC, a local environmental group. Last summer, I volunteered in a timber monitoring base camp event. At my previous junior college, City College of San Francisco, I was co-president of an environmental club on campus called Green Corps and worked to organize an Earth Day event on campus. I would like to join the A.S Earth Week Committee to join a group of focused activists to make Earth Week in 2018 a really memorable experience. Some ideas that I can contribute to the

Earth Week Committee would be to help form workshops related to sustainable skills and to host a climate justice march for Earth Day in 2018.

I have held a position at Green Campus for a year and a half, working on sustainability projects and past Earth Week events. Additionally, I have participated in workshops put on by WRRAP and CCAT, as well as participating in past Earth Week events.

I have worked very closely with the Retention through Academic Mentorship Program (RAMP) for three years. Within this program, I have witnessed how policy changes have impacted HSU students, and have acquired the skills necessary to advocate for their academic, social, and mental/emotional needs. I also have a strong background in Education coursework, and have studied subjects such as; Middle Childhood Development, Lifespan Development, Supervised Work with Children, Social/Cultural Considerations within the Classroom and Exceptional Children and their families.

I do not have much experiences lobbying but I have some experience advocating for a social justice-oriented group on campus at my community college. I'm also currently working with a Lobby Corps member and HSAA in regards to homelessness. I hope to learn more and get better at doing this type of work as I commit my time and energy into this committee.

I have been on HEIF for a year, I am also a part of Green Campus (which also does sustainable projects around campus).

I have taken several classes on interpreting and amending constitutions as well as prepared case briefs of several supreme court cases that focus on the constitution.

My senior project involved educating my peers on how to be more environmentally friendly, and I have a deep love for our Earth

I'm an active member of the HSU Greens and have been involved in their collaborations with MeCha and HSAA in advocating for houseless students. My experiences of working as part of a collaborative, consensus based group and actually going out into the community and seeking the experiences and input of others has helped me become a better listener and team player. My experience in the group has also helped expose me to many struggles that students face in their academic career and made me want to be a part of offering solutions to these struggles.

I have worked for the Student Disability Resource center for a year and a half. I have also been actively involved in the anthropology department as a Course Assistant and Club Officer.

Additionally, I have years of experience helping people with disabilities.

Currently a first year Energy Technology and Policy (ETaP) graduate program student. Skills I can apply for this position include a) the ability to take in information from multiple perspectives and critically analyze them and report back with or without personal opinion and suggestions depending on the setting b) utilize research engines to perform literature review on specific topics and technologies c) clear and professional communication and presentation.

I have been a member with Green Campus for a year and I am familiar with HEIF.

I helped organize a Special Olympics bocce tournament with the City of Arcata and the local high schools in Humboldt County. I am currently taking an Inclusive Recreation class this semester. I am a new volunteer for Special Olympics as well.

I am attentive and present. I am able to give opinions and feedback respectfully. I was with the Y.E.S house for a semester so I have some experience being involved with the school.

I was and officer for many clubs throughout high school, including President of GSA for two years, Public Relations officer and Vice President of Environmental Club, Public Relations and Club Relations officer of Associated Student Body, and Editor-in-Chief of Yearbook. I have also been a mentor for multiple organizations both during high school and on campus at HSU.

I am a current graduate student and A.S. Board Member. I was the senior class president at my high school and served in many leadership roles at my undergraduate institution.

Last semester, I was a member of the cheerleading club at HSU, a sport-intensive club that required 9 hours of practice every week as well as an extra 6-8 hours of time commitment on game days. Furthermore, athletics-wise, I was involved in a cache of school sports during my high-school years, as well as a gym- and pool-goer. I've worked 25 hours a week with 3 AP classes and an over-used gym membership. I'm an avid volunteer and have been since I was 15 years old, working on gardens or with kids or even 5 weeks in Africa with monkeys. I've been both a science major for a time, then a liberal arts major, and finally undeclared at Humboldt State University, and I know the course catalog better than my own name. I'm the daughter of both an Army veteran and a CEO of a biotech company, subject to experiencing two vastly different views of the world.

All of these factoids create an purposeless, manic facade, but it is in that facade that I mean to show how relatable I am. I'm a very curious person interested in the many, many possible walks of life that exist, because I myself have begun down a multitude of paths. This makes me an asset because I know how to empathize with the diversity of students that we have at Humboldt, from athletes to civil rights activists to academics. Not only am I observant of how I feel within each of these identities, but I am able to reflect on them and compare my experience to that of my peers. For example, I know that advisors are an under-appreciated and underutilized resource by many first-year students.

As for my character traits, I'm a very hard worker, most likely to win "most improved" in any situation. I'm also extremely organized, a young woman with about 50 highlighters too many and 4 subject-oriented planners. I take time to make my decisions, writing out pros and cons lists and researching statistics to ensure I make the best decision; some say this is one of my faults because I tend to overthink situations. Lastly, and most prominently, I'm an uncertified diplomat: prone to mediation and choosing my words carefully so as to communicate my thoughts most effectively. I think all of these characteristics are useful when it comes to any leadership position, especially an advisory role which requires accurate representation of the desires of an abundance of people.

I was appointed to the Disability, Access and Compliance Committee as well as the treasurer of the Recreation Administration Club.

I am a senior, communication/business major, member of IAAC, captain of men's soccer team. I worked with the Democratic National Committee for the 2016 election and have worked with a San Francisco organization by the name of "UpVote" that worked to expand voter registration. I actually am already apart of the AS presents committee (year 2017-18) which has given me the tools to be more of an asset for next years committee. I also traveled a bit with the debate team here on campus and have a radio show on HSU's radio station. Music is defiantly an outlet for so many people and I like to able to help people be able to distress themselves in a healthy way. I do not have experience on campus, but i do believe i have skills that qualify me for the position. First, i am bilingual, and that means i can relate and advocate for the community that feels less represented on campus. Also, i tend to get very passionate and into my work. That makes me determined to brainstorm and come up with ideas for work and events people would love to come to. Lastly, I am a very easy going person and i love to meet new people. That means i will have good communication and work well with others. At first, i am a shy person but soon after, you will realize i am humble, sweet and passionate and that i fit well for the A.S presents representative position.

I am a current member of the Toyon staff Events and Planning team, I served on the Associated Students of the College of the Redwoods, and I have done a lot of independent research regarding emerging advanced technologies, government programs, and community organizing committed to updating and the obsolete and minimizing the wasteful.

Current (but not returning) Board Member

I have been a committee member since Spring 2017, as well as work managing HSU's student run radio station KRFH, which has helped broaden my knowledge of current trends in performers. I currently am in 2 different committees (SFAC, Disability, Access & Compliance Committee and I am currently running for At-Large Representative. I was recently in the hospital because of some mental problems but I was able to get the help that I needed. I get resources from the SDRC so I have a pretty good understanding of what students health needs are. I see a counselor every week, and see the medical staff downstairs in the health center. The reason why I want to run for At-Large Rep is because I want to work closely with the health center and the SDRC, to make sure that all students and staff are getting their appointments, accommodations and services. I assisted Jennifer Maguire in the Fall '18 in research for student housing and food insecurity. Also, I am currently assisting Janette Bramlett at CCRP in creating focus groups for Oh Snap services research.

**College:** College of Professional Studies

**Major:** Social Work

**Class Standing:** Junior

## **Administrative V.P.**

### **2. Name: Chih-Wei Hsu**

**Committee:** Sponsored Programs Foundation Board of Directors

#### **Explanation of why they are interested in the position:**

Interested in shaping the direction of research at HSU. Especially under current budget challenges, it is crucial to ensure the research centers, faculties, and students will keep on receiving the support SPF provides to continue contributing their respective fields.

#### **Description of any past experience, campus activities, and/or skills that may qualify them for this position:**

Committee member on the HEIF committee and Transportation and Parking Committee, member of the Renewable Energy Student Union, member of Roosevelt@HSU, taken policy and planning courses, experience working with different people from different cultures, working at Redwood Coast Energy Authority as a Project Coordinator for the Prop 39 projects which involves working with public funds.

**College:** College of Natural Resources and Sciences

**Major:** Energy Technology and Policy

**Class Standing:** Post-Baccalaureate

**Legislative V.P.**

None

**Student Affairs V.P.**

None
