COMMITTEES OF THE UNIVERSITY

In a number of major areas of university interest, there is a continuous administrative operation combined with the recurring focus upon matters of policy. For these areas, in order to avoid the need for establishing two committees - one an administrative committee concerned with operational matters and the other a University Senate committee concerned with policy formulation and recommendation - there has been established the pattern of a single committee which combines the two functions. These are known as Committees of the University and their outstanding membership characteristic is that they have, as chair, the person who most directly has the administrative responsibility involved.

- International Programs Screening Committee
- President's Advisory Committee on Sustainability
- Student Grievance Committee

UNIVERSITY SENATE COMMITTEES

The University Senate is a deliberative body guided by the principles of shared governance, and comprised of faculty, staff, administrators, and students. The University is the university's primary policy recommending body. In order to carry out its function more effectively, the University Senate has established standing committees, defined in the University Senate Bylaws and Rules of Procedure.

APPENDIX B: APPOINTMENT PROCESS

APPOINTMENTS

Appointments to the AS Board of Directors are recommended by the President of the Associated Students and approved by AS Board of Directors. (AS Govt. Code 7.07) (See the appendix for a list of each Committee appointment by Executive Officer.) It is important that the entire description contained in the Committee Structure Handbook be reviewed before appointments are made since some are restricted by certain qualifications.

According to the A.S. Code, all Executive appointments shall be approved by a two-thirds majority of Board. Also, all persons nominated for appointment must be present at the A.S. Board of Directors meeting at the time they are nominated. (AS Govt. Code 7.03)

In some cases, A.S. Executives listed as members of a committee may decide to delegate that responsibility. If an Executive decides to do so, the Board of Directors must approve the nominated designee. (AS Govt. Code 7.05)

Also included in the lists are positions on committees/boards held by Executives as a result of A.S. office held.

When a new committee is formed, the A.S. President shall recommend to the AS Board of Directors, which Executive shall make the appointment(s). All appointment recommendations shall be approved by the ASC.
